DRAMATIC COLOR A charcoal and white Art Deco pattern calls for a couple of natural accents, such as bright red chrysanthemums. Ron Ben-Israel, New York. **PLAYFUL LINES** (OPPOSITE) Dark gray lines create a little chaos on an otherwise simple white cake, while oversized sugar-made pink orchids give the confection a splash of color. Two-dimensional pop art-style orange sugar flowers add a little rowdiness to a very square, symmetrical cake that's trimmed with orange and white-striped fondant bands. Both by Truli Confectionary Arts, Philadelphia. >>
